NIT-R Tops Ranks in Odisha

From Page1...

NIT-Rourkela, formerly Rourkela Engineering College, came on top in the State with an overall national ranking of 19. The IIT-Bhubaneswar, one of the young IITs which has completed four batches as yet, has been ranked 26th. The two operate under MHRD.

A closer look reveals that Rourkela-based NIT has secured fourth rank among 12 NITs operating in India. Similarly, IIT-Bhubaneswar, according to NIRF, can be truly considered a "Rising Star" along with six other IITs. The rest engineering colleges are, again, private institutes.

While KIIT got 32nd rank, it is followed by NIST, Berhampur at 69th place, CV Raman College of Engineering at 74th and Centurion Institute of Technology at 81st rank. There are over 80 private and six government engineering colleges which offer UG courses in the State.

Surprisingly, not a single management institute from the State has featured among the top 50 B-schools of the country.

In the pharmacy institutes list, Baripada-based Seemanta Institute of Pharmaceutical Sciences was placed 49th among top 50.

NIRF based its assessment on five basic parameters which included Teaching, Learning and Resources (TLR), Research Productivity, Impact and IPR (RPII), Outreach and

Inclusivity (OI), Graduation Outcome (GO) and Perception (PR).

The survey outcome has also thrown up serious questions about the state of affairs of the institutes of higher learning in the State.

The ten government-run universities, most of which have not obtained NAAC accreditation, did not even register themselves for NIRF citing problems of deadline and non-availability of data from their constituent colleges.

Three of them are in their nascence and yet to have their Syndicate and Vice Chancellors. Utkal University of Culture is yet to get recognition of University Grants Commission under Section 12(B) which allows it to secure financial grants.

However, the varsities and national engineering institutes are upbeat about the survey outcome. Director of IIT-Bhubaneswar Dr RV Raja Kumar said the ranking is a very good step forward as it opens up the institutes to a global platform.

"Public perception about an institute takes time to build. Ours is a young IIT and we are trying to improve faculty, teaching-learning, infrastructure, academic culture and research works," he told this paper.

NIT-Rourkela Director Prof Sunil Kumar Sarangi said the 19th rank was satisfactory and felt that the ranking process could be made further broad-based in the years to come.

State institutes not in MHRD top 100 list

NIT Rourkela Only Centre In Top 25 Category

TIMES NEWS NETWORK

Bhubaneswar: No state government-run institute figured in the list of top 100 in any category in the India Rankings 2016, a national-level grading of educational institutions published by the ministry of human resource development (MHRD) on Monday.

The MHRD National Institutional Ranking Framework (NIRF) has published the ranks of institutions across four categories — engineering, management, pharmacy and universities.

NIT Rourkela is the only institute located in the state to figure among top 25 institutions in any category. The central government institute was ranked 19th among engineering institutions.

Higher education minister Pradeep Panigrahy said the list should serve as a wake-up call. "The government will review why none of its institutes figured in the list," he said.

Sources said most state government universities and colleges were caught unawares and failed to even apply to NIRF for rankings by the stipulate date.

Utkal University vice-chancellor Ashok Das said the university missed the deadline to apply and had requested the MHRD to allow it upload its data. However, the same was not allowed.

In the university category, privately-run SOA University (ranked 26th) is the

Students of NIT celebrate after receiving their certificates

REPORT CARD

► The MHRD has published the ranks of institutes in four categories — engineering, management, pharmacy and universities

► In the university category, privately-run SOA University (ranked 26th) is the only university from the state in the list of top 50 universities

► The KIIT University comes at the 53rd position

► Seemanta Institute of Pharmaceutical Sciences in Baripada was ranked 49th among pharmacy institutions

► In the management category, no institute located in the state either in the government or private sector, found a place in the top 100

only university from the state in the list of top 50 universities.

The Kalinga Institute of Industrial Technology (KIIT) University comes at the 53rd position. The multidisciplinary SOA University, with a student base of around 10,000, had come into ex-

istence on July 17, 2007 when the HRD ministry conferred on it the status of a deemed-to-be university.

A spokesperson for SOA University said the university is focused on research and quality academics and churning out professionals ready for the challenges and needs of different industries. It had identified 18 thrust areas for promoting research and set up 10 research and field centers besides 29 research laboratories. The university runs 58 postgraduate programmes.

NIT Rourkela director Sunil Sarangi said being the only institute from the state among top 25 is a proud moment. However, being a national-level institute, it will strive hard to improve its tally nationally. Apart from NIT Rourkela, other institutes in the engineering category from the state which find a place among 100 institutions are IIT Bhubaneswar (19), KIIT (32), National Institute of Science and Technology-Berhampur (69), CV Raman College of Engineering-Bhubaneswar (74) and Centurion Institute of Technology-Jatni (81).
